KISS THE HR STONE AGE GOODBYE

WITH

SMALL BUSINESS HR SOFTWARE

What Are You Waiting For?

I've seen you around.

And noticed you noticing me. Whatever you've been using to manage employee data is just not holding your interest anymore, huh? I think I know why.

Have you been wasting your time

trying to manually track your HR data? Are you doing duplicate entry? Is it holding you back from doing HR the way you were always meant to?

It’s time

to ditch that stone-age system and discover how beautiful HR can be with me.

Ask me anything!

Before we get together, I want you to know everything. I have no secrets.

It seems like a lot of work

to finally get started with HR software. Is transitioning to a new system going to make me busier than I already am?

A good HR software company

should handle the heavy lifting for you. I will walk you through how to get your employee information into a centralized database in a manageable, steady flow so it doesn't distract you from focusing on what really matters—your people.

Question

But how long will it take me to learn a new system?

Looks aren't everything

but they do matter. My interface is clean, fast and fun. Great software, like me, is easy to use. You can get started right away, and my free trial gives you a chance to test it out first! Like a no-strings-attached first date! And I'll pick up the tab.

Go ahead. Click. I'll wait.

Question

But my boss would never okay the extra spending, right?

You'll be surprised

how easy it is to ask your boss for HR software because of all the benefits you get and the risks it removes. You'll be solving a big problem for your company, and a big raise just may be in your future!

My cloud-based HR software is affordable.

You just pay a low monthly subscription based on the size of your company. This type of pricing structure makes HR software available to even the smallest companies. Sounds like a great relationship, eh?

Customer Support

Support should never cost extra, and I'm always here for you. Others have raved about my manners, courtesy and timeliness.

Call or email me anytime.

I'll never leave you hanging like that last relationship!

Mobile App

My mobile app makes it even easier to access your employee data. Even when we're off on a romantic getaway!

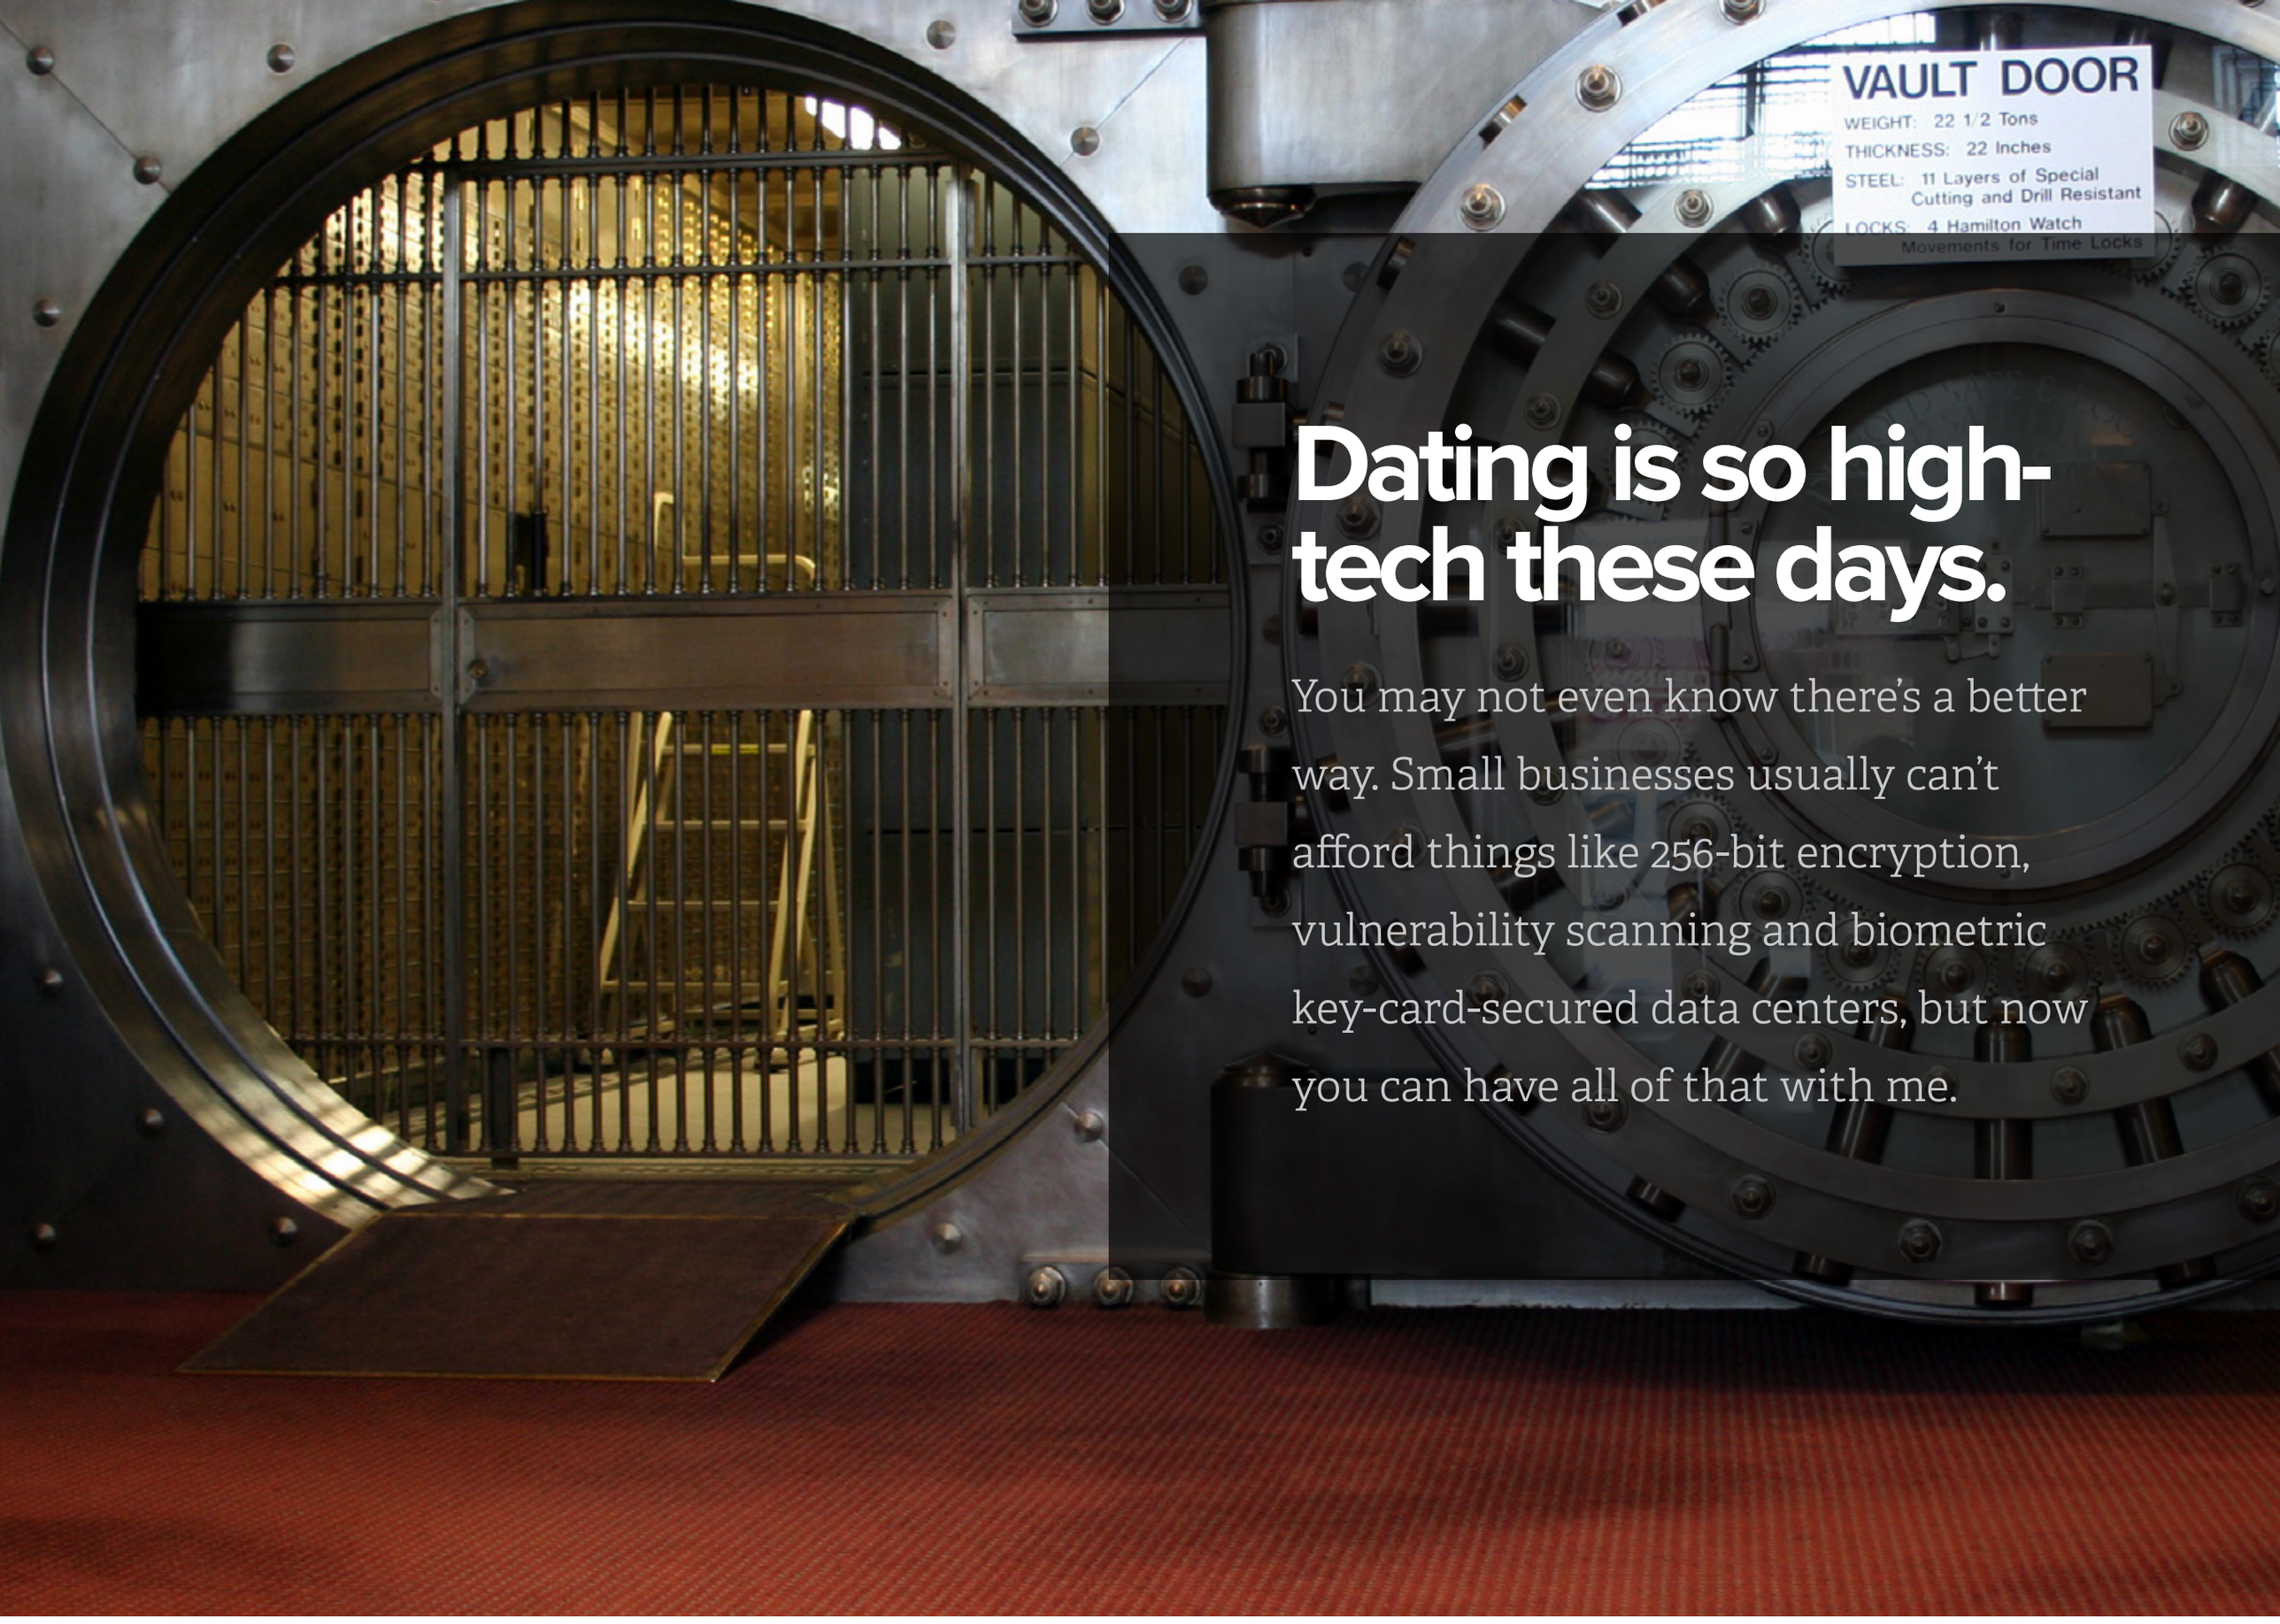
Question

It makes me nervous not to have all my data stored right here at my office. Just how secure is this central database?

© 2013 BambooHR LLC. All Rights Reserved.



Dating is so high-tech these days.

You may not even know there's a better way. Small businesses usually can't afford things like 256-bit encryption, vulnerability scanning and biometric key-card-secured data centers, but now you can have all of that with me.

Question

So what happens to my data if we stop using the software?

© 2013 BambooHR LLC. All Rights Reserved.

Breakups are never easy.

But with me, they almost never happen. No matter what, your data will always be yours. I'll even wrap it up in a nice, pretty, accurate file to help you move on.

You shouldn’t be stuck

doing data entry instead of HR. You’re at the prime of your life. Pairing up your employee’s data with me will let you have the freedom to work on strategic HR—like hiring, training and retaining your people.

It’s time to cut out the busy work.

You should be able to whip out reports in seconds, automatically send email alerts so no one misses a deadline, update dozens of records at once—all while remaining under budget.

And hey,

with everything done so quickly, you can get home on time.
